

IN THE UNITED STATES PATENT OFFICE

Re Application:

Title: Incinerator Furnace Condensers and
Methods of Using

Inventors: Caivs E. Egbufoama

Filing Date: 07/31/2003

Application # 10/630902

PETITION TO MAKE SPECIAL

Commissioner of Patents and Trademarks

Sir:

The inventor (s) of the above named application for patent respectfully petition (s) that the application received advancement of examination per MPEP 708.02 (IV) and 37CFR 1.102 (C) by reason of the application's contribution to clean environment and renewable energy. While the method (processing procedure) of processing liquid waste to renewable energy is patent pending, the application makes the process possible. One of the advantages of the application is that it is used to convert liquid waste to renewable energy products providing clean environment by eliminating the processing or raw sewer and the discharge of treated sludge into the environment.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statement were made with the knowledge that

willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed. Thank you for considering my petition
